CORD WRAP | TB-B1-A-31

The ToughBuilt® StackTech® Cord Wrap is engineered for Pros to build a system unlike any other and customise it to the needs of every trade.

The StackTech Cord Wrap is an innovative upgrade for your workspace organisation and cord management. Thanks to its two-piece design, this cord wrap can be easily mounted on both the front/back and sides of StackTech tool boxes. When positioned at the front or back, the cord wrap conveniently accommodates up to 15m of 12-gauge cord, ensuring that you have ample length for any task at hand. Opting for a side-mount setup? It securely holds 7.5m of 12-gauge cord, perfect for more compact spaces. This adaptability ensures that you can optimise your StackTech system setup to meet your specific needs and workspace configuration. StackTech Cord Wrap features quick-release buttons that allow for effortless repositioning on the stack. But the real game-changer is in our fast cord removal mechanism. By pushing the buttons on the arms and rotating them, you can easily remove your extension cord without the need to unwind it, saving time and reducing the wear on your cords. By rotating the arms 45 degrees upward, you can turn them into oversized hooks for use with fish tape reels and/or to hold other products. Increase your efficiency and productivity by adding the StackTech Cord Wrap to your StackTech tool box setup.
