Evo.Ca_SpaceLine

SpaceLine... 10 good reasons to cut-the-edge

2

1. New Design

- Minimal and effective
- The plastic cabinet looks more professional

Evo.Ca_SpaceLine

2. Total modularity

Dynamic Folding
System (D.F.S.)

4

Evo.Ca_SpaceLine

3. Size

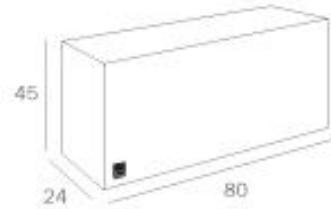

- 80 cm width (instead of 65 cm)
- Inner volume is 70L larger than standard cabinets

5

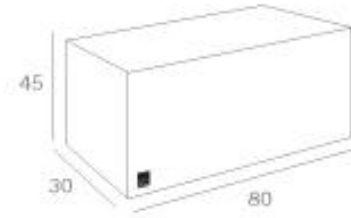

4. Packaging

LOW
80 x 24 x 45 cm

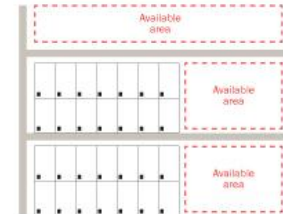

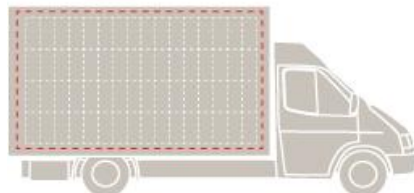

HIGH
80 x 24 x 45 cm

MULTISPACE
80 x 30 x 45 cm

- Comes from the need for better space / stock optimization in the store (point of sale)
- Cardboard cm 80x24x45h
- The linear meter has a greater value

5. Water resistant

- Comes from the need for external use of the cabinet
- The new design prevent from water infiltration
- Finally a cabinet for the terrace!!!

6. Assisted Opening System (A. O. S.)

The cabinet quality is also ensured by the doors opening

Doors will not be opened by the wind

Door hinges become main part of the cabinet

Hinges are stainless steel

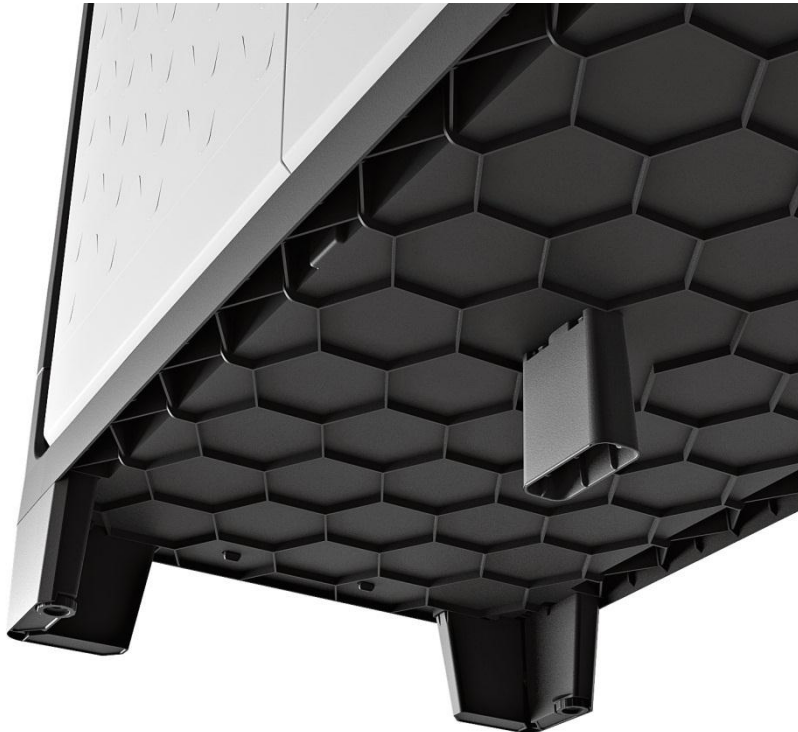

7. Load Capacity

- Also a plastic cabinet must have a good load capacity
- The shelf has a support bar
- Capacity of 30 Kg each shelf

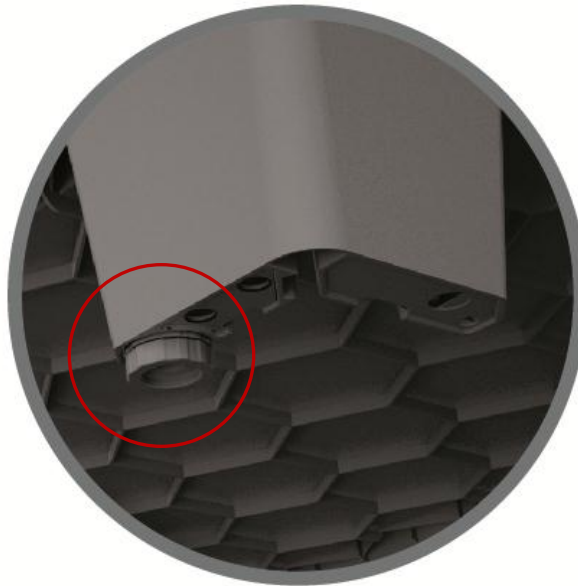

8. Strong bottom

- Heavy objects are attached downwards
- 5th foot in the middle
- The base capacity is 30 kg

9. Steady

- The cabinet needs to be placed on each floor
- Feet are adjustable
- Doors close properly

10. Security Lock Off (S. L. O.)

- Need for a rapid change of the space inside the cabinet
