1. Stäng av strömmen/Turn off the power

2. Borra hål i taket/Drill hole in ceiling

3. Anslut till LED-drivern/Connect to LED driver

Mått/Dimension

Designlight Scandinavian AB
Q-19MW-10

F

1 kWh/1000h

2019/2015

! SÄKERHET:

1. Läs igenom hela manualen noggrant före installation.
2. Kontrollmät ALLTID diametern före håltagning i tak.
3. Kontrollera att drivdonet är anpassat för det antal lampor som ska installeras. Antal watt per lampa x antalet lampor ger storleken på transformator.
4. Försäkra dig om att spänningen är fränslagen före installation eller underhåll.
5. Installation ska utföras av behörig elektriker.
6. Ljuskällan är ej utbytbar. Hela armaturen måste bytas när ljuskällan är förbrukad.

! SAFETY:

1. Read the entire manual carefully before installation.
2. ALWAYS check the diameter before drilling holes in the ceiling.
3. Check that the drive is adapted to the number of lamps to be installed. Number of watts per lamp x number of lamps gives the size of transformer.
4. Make sure that the power is switched off before installation or maintenance.
5. Installation must be performed by a qualified electrician.
6. The light source of this luminaire is not replaceable, when the light source reaches its end of life the whole luminaire shall be replaced.
