200 A DIGITAL MULTI WELDING MACHINE

- Combined unit for TIG welding, 200 A, and MMA shielded metal arc welding
- TIG inert gas welding for precise welds and practically all metals such as steel and stainless steel
- MMA welding: universal welding process; popular with DIY enthusiasts because only one power source and the welding electrode are needed, no inert gas
- Welding current can be continuously adjusted from 15 to 200 A
- Compact and easy to transport, thanks to carrying handle and a weight of only 7.8 kg
- Delivery contents: TIG hose set 2.5 m, earth cable 2 m
