Use as a remote control

- Wireless switch and remote control in one

Works on batteries

- Battery-powered for easy placement in your home

Easy, reliable and future proof system

- Connect up to 50 Philips Hue lights

PHILIPS

Highlights

Installation free dimming

Connect the Philips Hue Dimmer switch to your Philips Hue Bridge, configure it via the app, and control your favorite Philips Hue light scene without using your smart device. You can turn your lights on/off, or smoothly dim your favorite light scene to the right brightness.

Fast and simple installation

The battery-powered Hue Dimmer switch can be used as a regular wall switch. You can place it anywhere you want, using screws or the adhesive tape on the back plate of the switch. It is a fast, simple installation with no wires and no hassle.

Easy wireless control

The switch is magnetic and can be removed from the back plate. This allows you to also use the Philips

Hue Dimmer switch as a remote control for your light with an indoor range of up to 12 meters.

Battery-powered

The Philips Hue Dimmer switch is battery-powered, so setting up is quick and easy.

Expand your ecosystem

You can connect up to 50 lights and 10 accessories to the Philips Hue Bridge (not included). Simply begin with any of the available starter kits or a separate bridge and start adding Philips Hue products. You can then control your lights at the swipe of a finger with the intuitive Philips Hue app. Philips Hue is based on ZigBee, a low power, safe, and reliable technology to control your lights. New features and improvements are continuously added to the system. Updates to both software and firmware are done wirelessly and seamlessly directly to your Philips Hue products.
