

LOW-PROFILE ORGANISER | TB-B1-O-10

The ToughBuilt® StackTech® Low-Profile Organiser is built to keep Pros sorted and work smarter and more efficiently.

The StackTech Low-Profile Organiser features an intuitive self-aligning top that allows StackTech tool boxes and organisers to virtually stack themselves. An auto-locking interface ensures the organisers and boxes sit securely, lock into place for transport, and easily unlock with the slide of a switch. A prominent lock indicator lets you know your Stack is safe to move without second guessing. Viewing contents and accessing the organiser is simple and intuitive with a see-through top and one-handed center latch. Inside, you'll find ten 5cm deep bins (8 standard and 2 large) and four dividers offering ample capacity to help Pros stay organised and partition their space
